

Service location # _____ (for internal use only)

PUBLIC UTILITY DISTRICT NO. 1 OF JEFFERSON COUNTY

AUTHORIZATION TO BILL TENANT

Before utility bills can be transferred into a tenant's name, this form must be completed by the landlord and returned to Jefferson PUD, 310 Four Corners Rd, Port Townsend WA 98368. **All incoming renters must apply for service prior to their move in date. Service start dates will not be back dated.** Landlord may rescind or modify this authorization at any time by filing a new authorization form.

Option – (Choose one)

1. Continuous Service; Bill Automatically Reverts to Landlord [Not Available for Broadband Service]

Utilities are automatically transferred back to landlord's name upon verbal or written notice by the tenant to the PUD. When the tenant notifies the PUD that he/she is moving out, the PUD will attempt to notify the landlord by email of the end of service date. However, the landlord is responsible for paying all charges accumulated between tenants even if new tenant fails to sign up for service when they move in. The PUD will not attempt to mediate landlord/tenant disputes over the account.

2. Disconnect; Service Disconnect Unless New Tenant or Landlord Sign Up

Service is shut off unless the landlord requests a transfer or a new tenant applies for service before the current tenant closes the account. When a tenant notifies the PUD that he is vacating a property, the PUD will attempt to notify the landlord by e-mail of the end of service and dispatch a crew to turn the power off. If the power is shut off, the party that is requesting a reconnect must pay a reconnection charge in addition to any other applicable application fees.

Tenant Information – (Choose one)

Blanket authorization for all future tenants to be billed at this address.

Authorization on a per tenant basis (please enter tenant information)

Tenant Name: _____

Tenant Phone: _____ Tenant Email _____

Landlord - Tenant Services

Landlord Services are designed to help rental property owners efficiently manage electric utility moves and changes for rental units. These services are available for all landlord or property management companies.

Let us help you save time. Electric service is automatically transferred to the landlord's name when the tenant requests service to be stopped.

We'll help you save money. We waive the normal Account Service Charge when the account is transferred into your name in between tenants.

Guarantee continuous service between tenants. Automatic service transfer means the electric service remains active, allowing you to clean, show the property to prospective tenants and provide security. Continuous power also offers protection to the unit's plumbing system during cold winter months.

Automatic Shutoff. Should you not select to have the power bill revert back to you the PUD will physically disconnect the meter on the tenant's requested termination date. Turn on costs will then revert to the Landowner or new tenant.

Contact us today. Call (800) 700-7152 or 385-5800 or stop by our office and let us begin putting our Landlord Services to work for your properties today.

What you need to know about Landlord Services

Before allowing the tenants move in, it's a good idea to verify that they have transferred electrical service into their name. You are financially responsible when service to the unit is still tied to your name. Service will not be transferred to your tenant until a signed application all fees are turned in to the District. Once all items have been received the account will be transferred into the renter's name.

- As an extension to Landlord Services, you can specify automatic transfer of service to your name if the tenant's service is scheduled for shut off due to nonpayment.
- If the property is sold, it is your responsibility to contact us so that we can cancel these services.
- When the tenant notifies the PUD that he is leaving the date he gives us as his last day is the date the account goes back to the Landlord or it is disconnected. If you elect the continuous service option, the PUD will attempt to send the Landlord an e-mail notifying the landlord of the end of service date.
- If the tenant application does not include the option to transfer service back to the landowner, the power will be turned off on the date the tenant identifies. The landowner or next tenant will be responsible for the connect charge.
